SFWGA CONTEST
February 5th 2022

Welcome to this year's Stoneman Douglas Winter Guard Competition!

We sincerely thank you for being a very big part of one of the first in person guard competitions to return!

We all have learned that winter guard competitions are more than just teaching our kids to dance around the gym while playing a song. This is an extremely discipline, choreographed, and musical experience that is just the tip of the iceberg. This is perhaps the only element within the academic environment that brings people together from every discipline and unites the athletic with the aesthetic in this very creative enterprise. Most importantly…IT'S FUN!!

Our students here at Stoneman Douglas High School, like the majority of the winter guard programs, are encouraged and motivated to perform at their VERY BEST on a daily basis. Together with the dedicated parents of our program, "The Marching Eagle Parent Association," talented staff, and administration, **YOU** will witness the fruits of our labor in the gym today as our children perform at their very best. So, sit back, relax and let us enjoy all of our kids performing their hearts out!

Sincerely,
And with Gratitude,

Dean M. Broadbent

who we are. . . .

The South Florida Winter Guard Association is chartered by the State of Florida as a non-profit corporation, and approved by the IRS as a 501(c)3 public charity.

The organization was established in 1980 by several high school band directors to continue the marching band drill team experience into the winter months. The fledgling organization was aligned with and patterned after the newly formed Winter Guard International which had been created three years earlier to establish world-wide standards for indoor color guard judging and competition.

Throughout the 1990's the SFWGA grew and embraced 20 to 30 color guard units in weekly competitions. During this time, South Florida became a respected name in Winter Guard International, producing medal winners such as Stoneman Douglas, Miramar HS, Alliance of Miami, J P Taravella, Coconut Creek, and Santaluces.

what we do. . . .

We instill in students and young adults an appreciation for the Performing Arts, and accomplish this by encouraging artistic expression and individual accomplishment through a blend of rhythm, music, dance, precision drill work, and dramatic effect.

We use competition as the venue to build the values of teamwork, leadership and discipline in our student performers. The high school band programs remain the core focus of our responsibilities and initiatives. Our activities are designed and intended to augment and complement high school band programs, and exist in harmony with the educational philosophies of the Band Director.

We offer a full range of skill groups, from beginning novice classifications to highly advanced world classifications. Our contests are designed to create an environment where all students may excel and be recognized for their performance accomplishments without regard to gender, physical attributes, family economics, or previous experience.

We foster a competitive environment where all students, regardless of skill level, bring value and appreciation to the performance floor, and are recognized for doing so. We build character, social responsibility, and moral values by providing a structured, adult supervised environment, centered around the parent-student-teacher relationship.

Instructors are the backbone and core component of the activities. The scoring process is designed to acknowledge and reward the contributions of our instructors and their staffs. We provide instructional and design educational opportunities to Instructors throughout the season through a blend of pre-season judges feedback, live side-by-side opportunities with judges, and post-performance critique with judges. To ensure the quality and consistency of judging and scoring, the SFWGA assigns a Judging Administrator to oversee the entire Judging process, and to recruit the highest caliber judges throughout the country, many of whom are Finals Judges in World Championships.

our promise. . . .

We are committed to supporting Music and Arts programs in our school systems, and ensuring the existence of the SFWGA for future generations. We do this through fiscal responsibility, the promise to live within our financial means, and the promise to continually re-invent ourselves to meet the changing needs of the community. We encourage instructors and designers to expose their performers to a wide variety of music and performance themes during their high school years, and to reach beyond the status quo, implementing new and untried performance ideas.
